

Ocean Beach Hospital Implements PatientTrak Solution

April 2010 – PatientTrak.net is pleased to announce a new partnership with Ocean Beach Hospital of Ilwaco, WA. Ocean Beach has selected and successfully implemented PatientTrak to manage patient flow through all areas of the hospital, including Radiology, MRI, Emergency, CT, among other departments. Ocean Beach uses the PatientTrak solution to track waiting times, patient location, and status, and to automatically notify and alert on those patients who have been waiting for longer than 10 minutes. Ocean Beach Hospital includes the user defined Activities to timestamp and record when a Lab has been ordered, if a patient is waiting for transport, and if a patient left without being seen. “We love it!” says JoAnn Henry, Office Manager for Ocean Beach Hospital.

About PatientTrak.net: PatientTrak.net is the leading provider of on-demand patient tracking solutions. Using only a web browser, the PatientTrak system allows health facilities to easily track patient’s wait times, status, and treatment providers. The PatientTrak solution sold with a low monthly subscription fee and no software or hardware to buy, greatly reducing the need for IT investments, maintenance, and support.

About Ocean Beach Hospital – Ocean Beach Hospital, who’s mission is to provide compassionate, patient-focused care to the community, has been serving the Ilwaco, WA area for more than 70 years.
