

El Rio Health Center Successfully Implements PatientTrak Solution

March 2010 – PatientTrak.net is proud to announce the successful implementation of the PatientTrak solution at El Rio Community Health Center in Tucson, Arizona. “I surveyed each MOS individually with regards to how they felt about PatientTrak. All of them said they find it VERY useful, and are quite pleased with the product, which is especially useful when we are busy. The MOS state that it helps them keep up with patient flow and they can quickly tell who is checked in or waiting to be checked in.” says Taisha Bradford, Clinic Manager at El Rio Health Center’s East Office.

PatientTrak is committed to providing the best of class, yet simple to implement patient tracking solutions to the healthcare industry, further demonstrated by our new relationship with El Rio Health Center.

About PatientTrak.net: PatientTrak.net is the leading provider of on-demand patient tracking solutions. Using only a web browser, the PatientTrak system allows health facilities to easily track patient’s wait times, status, and treatment providers. The PatientTrak solution sold with a low monthly subscription fee and no software or hardware to buy, greatly reducing the need for IT investments, maintenance, and support.

About El Rio Community Health Center - Now in its 39th year, El Rio Community Health Center is the largest provider in Pima County of medical and dental services to uninsured and Medicaid populations with over 16 patient sites in the Tucson area serving over 74,000 patients annually. The El Rio Health Center Foundation was created in 2001 to fund new programs, enhance existing programs and help with capital needs at El Rio Community Health Center. The El Rio Foundation has now raised over \$7 million in support of the health center.
